- Spanish: Basic

*I love bringing structure to chaos.*

*For about ten years, I have been designing and evolving SaaS platforms, business workflows and digital products that simplify operations and create value.*

*At the intersection of Product Management, Operations and Digital Transformation, I collaborate with Engineering, Data and Business teams to turn complex needs into practical, adopted and high performing solutions.*

## 2024 – 2025 | Project Manager, Impact – Elevate Global

Elevate IMPACT – Reporting Platform, KPIs & User Adoption

- Led product roadmap and prioritization for a SaaS reporting and insights platform operating across France, the UK, the US, Germany and Austria
- Defined and monitored product KPIs to drive business priorities and roadmap decisions
- Structured onboarding journeys and supported client adoption of the platform
- Translated business and customer needs into functional specifications and product enhancements
- Coordinated a cross functional team spanning Sales, Product and Reporting
- Contributed to the evolution of a catalogue of more than 150 KPIs and customizable metrics
- Managed the full delivery lifecycle including scoping, testing, releases and continuous improvement

## 2022 – 2024 | Regional Process & Product Lead – Elevate Global

Elevate ICRM – CRM Platform, Workflow Automation & Operational Excellence

- Led the evolution of a multi market CRM platform used across France, the UK, the US, Germany and Austria
- Supported the growth of the French organization from 7 to 70 employees within 6 months
- Identified product opportunities through user feedback, operational needs and regulatory requirements
- Designed and optimized workflows covering onboarding, staffing, booking, payroll, invoicing, expenses and reporting
- Worked closely with engineering teams to prioritize enhancements and secure release quality
- Established processes improving compliance, user adoption and operational efficiency
- Supported change management and user enablement across new tools and processes

Soft Skills

- Cross-functional leadership
- Communication & ability to simplify complex topics
- Analytical thinking & problem-solving
- Adaptability & pragmatism
- Active listening & interpersonal skills
- Change management

- Academic studies in Mathematics and Film

Personal Interests

- Capoeira Instructor & Practitioner
- Hyrox & Functional Fitness

2020 - 2022 | Area Manager - Encore Global

Digital Transformation, System Migration & Change Management

- Led a large scale digital transformation and system migration program across EMEA
- Managed the migration from Hiretrack NX to Easyjob, including data integration and workflow redesign
- Coordinated technical and operational teams across multiple European countries and the Middle East
- Managed an annual CapEx budget of \$250K
- Deployed new operational processes across 12 locations in the Paris region
- Delivered functional enhancements covering inventory management, procurement, subcontracting, staffing, invoicing and profitability tracking
- Supported teams through adoption of new systems and ways of working

2017 - 2020 | Operations development manager - Encore Global (PSAV)

- Led the evolution of the Hiretrack NX system across the EMEA region
- Managed investment budgets and P&L analysis
- Defined operational standards and drove continuous process improvement
- Managed RFP processes and supplier relationships
- Contributed to the digitization and standardization of operational practices

2001 - 2017 | Event Technology Specialist, Technical Camera Operator & Stereo Operator

- Coordinated teams in highly demanding operational environments
- Developed a strong execution mindset, cross functional collaboration skills and problem solving capabilities
